+4,000 smoke-free properties in Minnesota and counting...

Smoke-free housing is becoming a new standard for Minnesota multi-housing properties.

Learn why property owners and managers across the state are adopting smoke-free policies.

Smoke-Free Housing

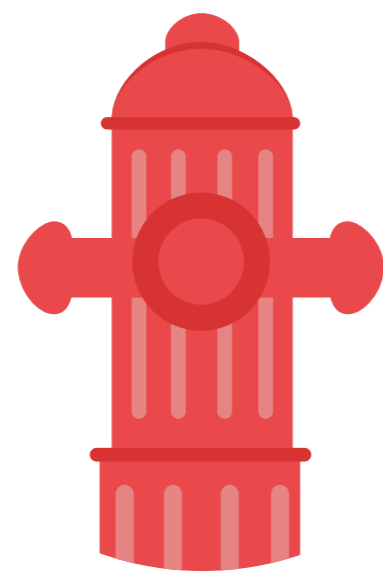

For Minnesota Property Owners and Managers

Healthier Buildings. Happier Residents. A Smart Investment.

Here's how a smoke-free policy protects your pocketbook, your property, and your residents:

Cut down your turnover costs 2-3 times over by eliminating cigarette residue, burns, and odor.

Reduce the risk of smoking-related fires and their devastating economic and human toll.

Take advantage of potential tax credits and insurance savings by going smoke free.

Smoke-free policies are legal and can even reduce your legal liability.

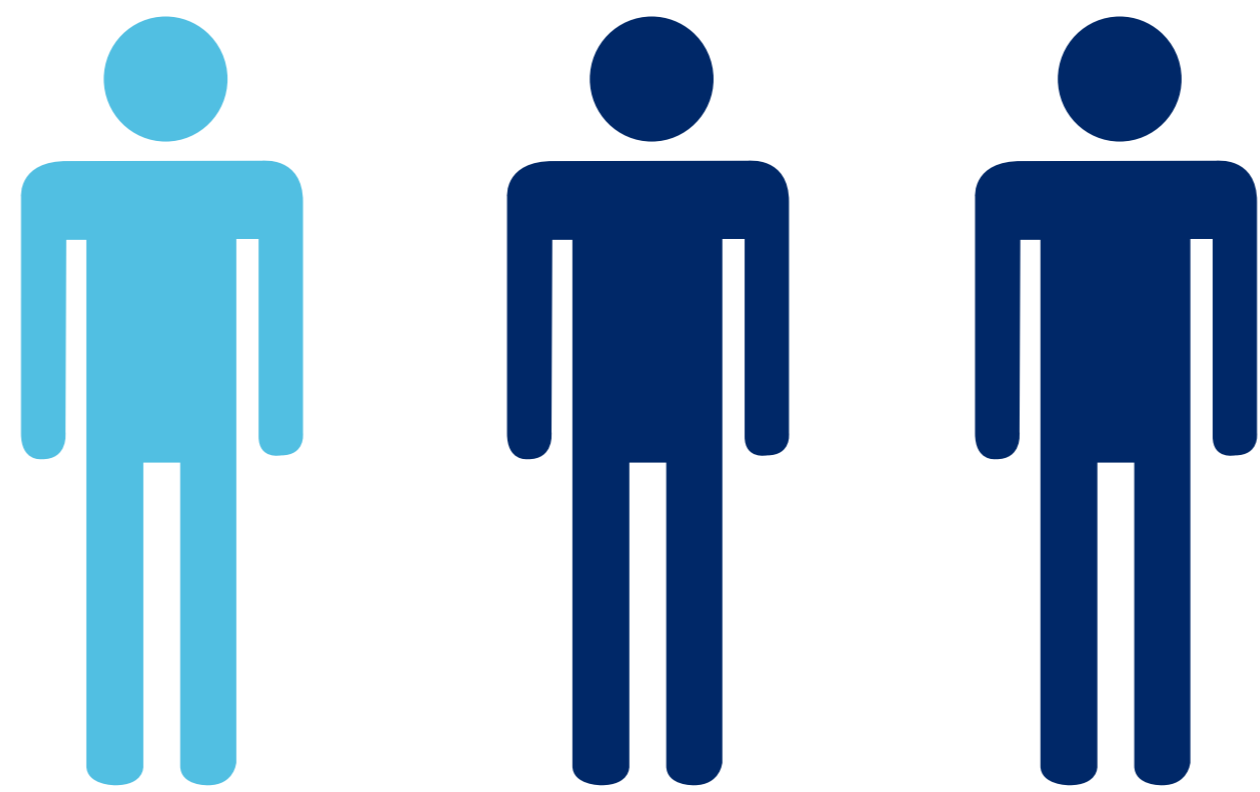

Say "goodbye" to sealing and ventilation costs and "hello" to green housing certification credits.

50,000

adult nonsmokers will die each year from exposure to secondhand smoke

1 in 3 nonsmokers

who live in rental housing are still exposed to secondhand smoke at home

75%

of MN renters prefer to live in a smoke-free building

Live Smoke Free

This work was made possible with funding from the Tobacco Free Communities grant of the Minnesota Department of Health.

Ready to go smoke free? Live Smoke Free can help!
